SUMMARY

Application development student building cloud solutions on AWS and applying architecture patterns, standards, and documentation practices. Currently studying DevOps, data analysis, and full stack development at RRC Polytech, expected May 2027. Seeking a Winter 2027 co-op term in Winnipeg.

TECHNICAL SKILLS

Cloud Services: AWS (Lambda, API Gateway, DynamoDB, S3), Vercel

Automation & Data: GitHub Actions CI/CD, pandas, Jupyter, Python scripting, SQL queries and joins

Languages: Python, JavaScript, TypeScript, SQL

Web & Frameworks: React, Node.js, Express, REST APIs, HTML, CSS

Databases: SQL, DynamoDB, Firebase Firestore

Practices & Tools: Agile and Scrum, design patterns, CI/CD, DevSecOps, API documentation standards, Git, GitHub, Postman, OpenAPI/Swagger, Microsoft Office Suite

EDUCATION

Diploma, Application Development and Delivery

Expected May 2027

RRC Polytech, Winnipeg, MB

Certificate, Electrical Applications

2021

Manitoba Institute of Trades and Technology, Winnipeg, MB

Coursework in progress: AWS Academy Cloud Foundations, DevOps, Data Analysis, Full Stack Development

PROJECTS

Inventory App, Cloud Infrastructure Project

Apr 2026

AWS, Node.js | RRC Polytech

- Architected serverless AWS application using Lambda, API Gateway, DynamoDB, and S3 supporting full CRUD operations.
- Designed DynamoDB data model with composite key and global secondary index for efficient queries.
- Automated deployment and code linting through a GitHub Actions CI/CD pipeline on every push.

Traffic Offence API, Team Project

Apr 2026

Node.js, TypeScript, Firebase | RRC Polytech

- Collaborated on team-built RESTful API using Node.js, Express, TypeScript, and Firebase Firestore.
- Applied consistent validation and response standards across endpoints, supporting traceability application-wide.
- Owned payments module: designed CRUD routes, JWT authentication middleware, and role-based access control.
- Documented all endpoints in OpenAPI/Swagger, producing interactive documentation used across the team.

Pixell River Financial Account System

Dec 2025

Python | RRC Polytech

- Built Python banking system handling deposits, withdrawals, and transactions across account types.
- Applied Observer and Strategy design patterns to standardize notifications and service charges.
- Modeled account classes using inheritance and polymorphism; earned A+ in project and course.

Community Support Tracker

Dec 2025

JavaScript, HTML, CSS | RRC Polytech

- Built responsive event-tracking web application in JavaScript with form validation and error handling.
- Implemented ARIA accessibility standards and local-storage persistence; earned A+ in course.

EXPERIENCE

Office Administrator

Dec 2021 - Jul 2024

Immanuel Fellowship Church, Winnipeg, MB

- Coordinated communications, scheduling, and vendor deliverables for leadership across three years.
- Investigated recurring process issues and documented solutions to improve internal team processes.
